
Moon And Star Party Straws

Supplies

9"x12" sheet orange construction paper

9"x12" sheet blue construction paper

9"x12" sheet yellow construction paper

3" crescent moon shaped cookie cutter

3" star shaped cookie cutter

Scissors

Craft knife

12 plastic drinking straws

Procedure

Using cookie cutters, cut star and moons out of construction paper. Working on a cutting board, use the craft knife to carefully cut a $\frac{1}{2}$ " horizontal slit in the center of the cutout. Make a similar slit $\frac{3}{4}$ " below and parallel to the first one. Thread a straw through the 2 parallel slits so that the cutout is 3" from the drinking end. Repeat with the remaining cutouts using both moon and star cookie cutters.
