# Dracula's Eyes

## Ingredients

½ C peanut butter  
3 T butter, softened  
1 C sifted powdered sugar  
4-ounces vanilla-flavored candy coating  
20 candy-coated milk chocolate pieces  
Red and black decorator gel icing

## Procedure

In a mixing bowl stir together peanut butter and butter. Gradually add powdered sugar, stirring until combined. Shape into 1" balls; place on waxed paper. Let stand about 20 minutes or until dry. In a small saucepan melt candy coating over low heat, stirring constantly. Dip balls, 1 at a time, into coating. Let excess coating drip off peanut butter balls. Place on waxed paper. Immediately press a candy-coated chocolate piece into center of each peanut butter ball. Let stand until coating is firm. Add a dot of black gel to the center of candy pieces for pupils. Drizzle red gel onto balls for bloodshot eyes. Makes about 20 eyeballs.
